Average of engagement_rate

Total Posts

Positive Sentiment%

A bar chart titled "Average of engagement_rate by platform" displays the average engagement rates for five social media platforms. The y-axis is labeled "Average of engagement..." and ranges from 0.0 to 0.2. The x-axis is labeled "platform" and lists the platforms: instagram, facebook, youtube, reddit, and twitter. The engagement rates are: instagram (0.29), facebook (0.29), youtube (0.28), reddit (0.28), and twitter (0.26).

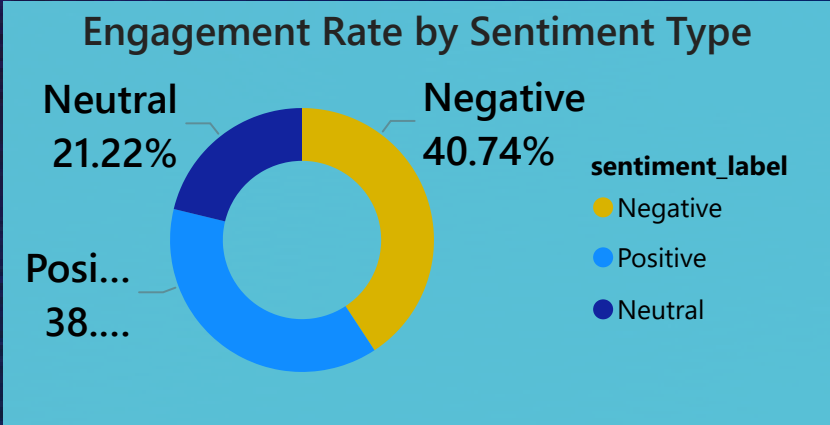

platform	average engagement rate
instagram	0.29
facebook	0.29
youtube	0.28
reddit	0.28
twitter	0.26

[illegible]

Engagement Rate by Sentiment Type

A donut chart titled "Engagement Rate by Sentiment Type" showing the distribution of engagement rates across three sentiment categories. The chart is divided into three segments: a yellow segment for "Negative" sentiment (40.74%), a blue segment for "Positive" sentiment (38.00%), and a dark blue segment for "Neutral" sentiment (21.22%). A legend on the right side of the chart, titled "sentiment_label", maps the colors to the sentiment types: yellow for Negative, blue for Positive, and dark blue for Neutral.

Sentiment Type	Engagement Rate
Negative	40.74%
Positive	38.00%
Neutral	21.22%

Emotion Type Distribution Across Posts

A horizontal bar chart titled 'Emotion Type Distribution Across Posts'. The y-axis is labeled 'emotion_type' and lists five categories: Sad, Excited, Confused, Happy, and Angry. The x-axis is labeled 'Count of emotion_type' and has major ticks at 0K, 1K, and 2K. Each bar is a different color and has its value labeled at the end: Sad (2.5K, blue), Excited (2.4K, red), Confused (2.4K, yellow), Happy (2.4K, green), and Angry (2.3K, pink).

emotion_type	Count of emotion_type
Sad	2.5K
Excited	2.4K
Confused	2.4K
Happy	2.4K
Angry	2.3K
